

**United Way of Hastings is pleased to partner with FamilyWize, to bring discount pharmacy medications to everyone!**

## **Who is eligible?**

Everyone! FamilyWize cards can be used by anyone, whether you have insurance or not. If you have insurance, check the price of your medication under insurance and with the FamilyWize card. You may find using the card is less expensive overall.

## **How does it work?**

FamilyWize partners with most pharmacies nationwide, to negotiate prescription discounts. Their pharmacy discount program reduces the cost of most prescriptions - use the box on the right side of the page to check the most current price of your medications.

The card provides pharmacy discounts (up to 75%) on all FDA approved prescription medicine not covered by insurance, Medicaid, Medicare or other benefit plans. You pay either the discounted price or the pharmacy's retail price, whichever is lower.

## **How do I use it?**

Simply use the following information when you call in your prescription or refill - or give the following information when you pay for your prescription. No need to show an actual card!

BIN: **610194**  
Card ID: **FW100**  
Group ID: **FW100**  
PCN: **FW**

Again, the FamilyWize discount program is available to anyone, regardless of insurance coverage. Use the card numbers immediately, to save on your next prescription!

## **Can I get a physical card?**

Yes! Please visit [FamilyWize](#) to get a physical card.

Or text the word "family" to 700700 and receive card information on your phone. Take it to one of the 60,000 participating pharmacies to begin saving immediately.

## **Can I get cards for my employees, members, or clients?**

Yes! Please contact us here at United Way of Hastings for information on large-scale distributions. Call 651-238-3337 for details.
